blocks up til horizontal bottom of arch, then solid, window side 1 inch

so i modified the lines on top of the arch, and i painted with the dark brown you chose the horizontal lines.
on the left top left side i painted the blocks of the rock. they have a little distance in the between rocks like 1 inch.
on the window side of the building i painted some horizontal lines with just a little distance in the between lines and rocks too, like 3/8 inch.

should we do with 1 inch distance between blocks or 3/8 inch?

.....
then i was thinking to do the white horizontal lines creamy color like in the picture you've sent it(see bellow).

or do wit that creamy color only the blocks in the corner and around door and leave the white the rest of the line? or maybe to the creamy color the entire white line and leave it white only around the door?

.....
should i do the inside arch the design in the picture below? (the arch is not finished yet, i have to do the 3d..)

thank you,
ion
