Subject: Re:

im looking for a closer look at cellular signaling form one to another attacked the same way as other signal intelligence. the signal is chemical in nature , but that might mean electircal or physicial shape. here we know the make up of the chemical and the output of the receiving cell . (die immeddiatley) etc.

Jeff,
I'm (not so) afraid that I'm at the Haystack fab lab this week:

<http://www.haystack-mtn.org/FabLab.php>

This is a colleague who showed inner-ear hair cells can transduce Brownian motion:

http://www.mpimf-heidelberg.mpg.de/departments/biomedical_optics/winfried_denk

And this is a colleague who's worked on pulsatile signalling:

<http://dspace.mit.edu/handle/1721.1/14260>

Neil

you are also welcome to come to the island this weekend . [REDACTED] is coming. Have you seen examples of signal processing algorithms applied to bilogical cell signaling?
