Thank you all again for the introductions. Every single meeting was inspiring and very interesting to me. It might be a good idea to talk to Deb Roy later on.

With grateful regards,

Joscha

Just made intros to Deb and Siggy might be good. Siggy is doing PhD on planning algorithms to model behavior that MIGHT have an overlap.

Ryan, can you try to make this happen?  
Thanks!

Today, anytime. ;-)  
Sorry for the short notice!

Joscha

Hi Joscha

I can certainly arrange this. What day and time were you looking to visit?

Regards,  
Ryan

Also, I would love to meet Henry Liebermann, or people from his group, if possible on such short notice.

Joscha

Hi Joi,

My own interests are in integrated cognitive architectures (i.e. things that Josh Tenenbaum does), with a focus on computational models of motivation and affect. I am modeling the emergence of goals and decision making from a set of

cognitive,  
physiological and  
social drives, and  
the emergence of  
affect from  
cognitive  
modulation.

I would also be very interested in learning more about Deb Roy's work, because I love the paradigm of stepping up the ladder of child performance as a way of understanding the mind.

Bests

Joscha

Sure  
Jeffrey.  
Hi  
Joscha, is  
there  
any  
particular  
person or  
group  
you'd  
like  
to  
meet  
?

Ryan, can you help coordinate this?
