Subject: Geneve Day One update

Jeffrey,

I took many photos, some very interesting designs and stitching, I will send individually from my Ipad, if you like anything, just send that email back to me, and we can discuss with Eric.

The show was lacking hardware products, such as tables and divans surprisingly, many leather and seat companies attended. There is a new air outlet i've seen in New AirBus aircraft I'll send you a photo that was at the show.

There is an interesting cabin entertainment system called SkyBox by Rockwell Collins, this is the system that Dennis mentioned while we where in the GIV, its \$39k installed. its a data base coupled with ITunes account that streams approx 100 movies to individual ipad's wirelessly, up to 8 ipads can view different movies at one time, unit has 1 Tera bite of storage. and works in conjunction with gogo Wifi. .

see link: http://www.rockwellcollins.com/sitecore/content/Data/News/2012_Cal_Yr/CS/FY13CSNR10-Skybox.aspx

I will send show photos now,. if you like something, send it back to me and i'll print.

thx
Larry
