Aspen plan to start planting the rear lavender beds soon

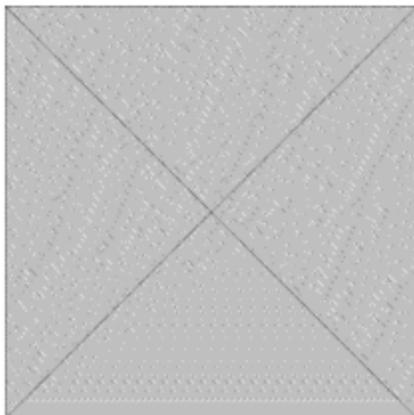

Before they do so we need to select the trees for the center of the planters, 5 total attached are some examples from local nurseries for your consideration you did mention rounded and low.

point to note, the lavender needs direct sun light so small and compact would be preferable

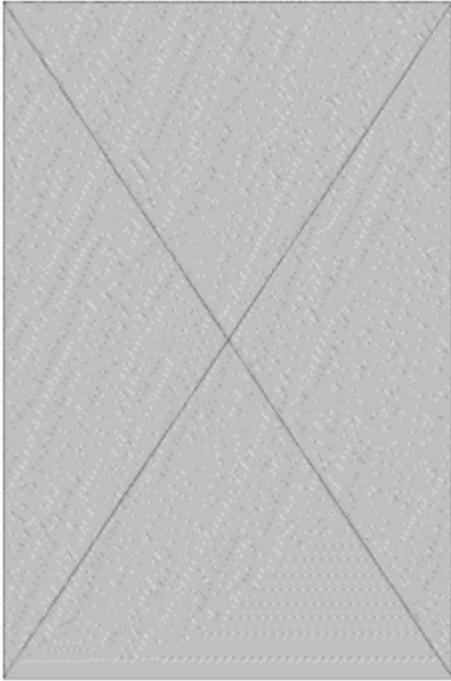

zip files , beds where you wished trees to be planted and photo's of different forms of pines more tree selection below for your consideration please advise if anything appeals

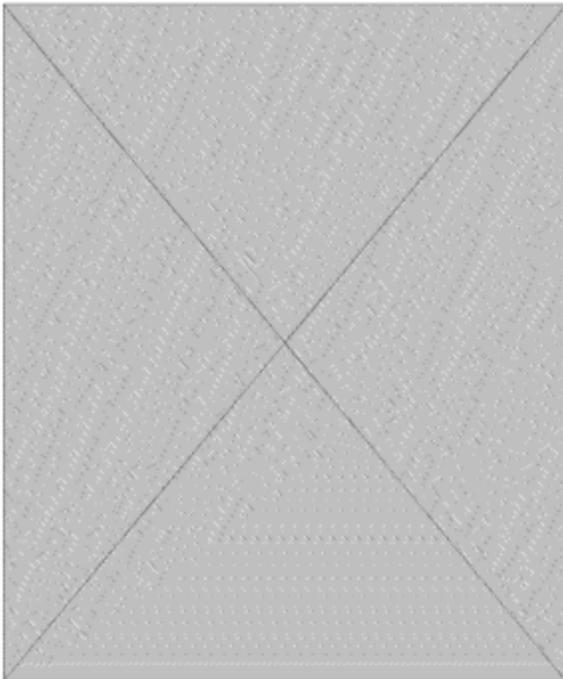

golden globe arborvitae , mature to 6 to 8 ft

globe arborvitae, mature to 6 to 8ft

Dwarf scotch pine, matures to 6 to 8 ft
very slow growing

French Blue
20ft to 40ft, takes a lot of maintenance
