Rich , York had all protection included in price from entrance doors through the main entry hall walls , Doors , also protection of all the dinning room floor over the rugs ,and protection of dinning room walls where gold leafing was applied S&E has no protection included in this quote . I will have have teddy price the project out with the same scope of work as york , as you know this is a finished residence and the protection is a large part of the cost.

Ed,

It was nice talking with you earlier.
Scaffold is needed for a dining room on the ground floor (after 10 go up about 10 steps

inside townhouse)
Dimensions are 26' x 20' x 8' with work platform on top and access via internal stairs
Probably will need for 20-25 days

Can you please provide a quote for me with contact information below
Please use NES LLC as the entity name

Thank you
