Subject: Project Patrick Gaguech

Dear Jeffrey,

It took us some time to finish your project and we hope it will worth it.

So please find below the project for New York which was deeply thought.
Your desk composition will be made with the latest technology we talked together about.

The design is based on geometric forms, mainly square softened by curves.

The materials used are:

- dark wood or black lacquered
- vegetal leather : white, Orange Hermes or antic red
- chrome

We think about to cushioned and to dress the composition with rugs in fur.

The couch is designed to be used in bed or in 2 pieces with a tray. The middle space is empty to be able to place your bass speakers.

The electric connections need to be thought therefore there will be no electric wires on the floor.

This room can become a very unique space thanks to the new layout and the new furniture.

Mister Gaguech is abroad till Wednesday but do not hesitate to contact him when he will be back.

We look forward to hearing from your comment and we hope this project will hold all your attention.

Best Regards.

AnMarie Conzon
