For years , I have fed you, clothed you sheltered you, taught you, transported you bought you flowers, jewelry gifts, balle, , in return I first asked that you , learn to help, suggested hotel management .I asked that you take care of me and my things . You chose to horse ride , photo , design, fly, you chose to ignore my advice, my needs , then I said ok please stopnagging me, you are not helping so do nothing to hinder me, you kept nagging nagging, you ignore what I did - [REDACTED] plusplus but focus on what in your mind I didn't. You ask me to send [REDACTED] away who has done nothing but was here to work as a nurse volunteer. You chose the route , I have no interest in reliving the past . I am your friend. If you had done what I asked , your issues would be my issues. You chose otherwise.
