Subject: Defrosting at Zorro

Dear Mr. Epstein,

On my last e-mail I said we would dedicate Feb.9th to finding the leak at the Main House. We did just that. Mano and Steve were able to isolate water lines and valves and find it.

It is on the non-r/o water supply that feeds the humidifiers to the master suite and runs along the wall of the South side of the house. It is a frost free water spicket connection that is in the wall outside the TV room.

Due to the politics of the situation, Mano called Brice. Brice has scheduled JJ Blea, the contractor to come out next Tuesday or Wednesday to gain access.

It is my opinion that Mano and Steve could gain access and have the plumber (that is scheduled to be here on Wednesday) fix it without the cost of the contractor. However, this decision is out of my hands.

Temps are going up for the weekend so hopefully all damage is done.

Have a good weekend and thank you for your time once again.

Wendy
