Subject: Questions

Here are some questions we have in advance of the meeting, to the extent we can find the answers:

What role will the Gates foundation play vis-a-vis other donors with respect to marketing, sharing of R&D, grant making and investments?

What is the profile of the potential donors, including residence & tax status? What level of influence will they want to maintain across investments and grant making? How important is anonymity?

Is pooling of investments and pooled grant making a core feature of the offering?

What is the potential funding amount and what is the anticipated funding rate?

What is the timeline for launch? Is the objective to create a vehicle to exist in perpetuity or is it a thematic spend-down over time?

Are there specific themes and charities identified for grant making or is there a broad scope of charitable targets?

These are all generic questions from the team, but to the extent we can get any guidance on some of the direction, it would be very helpful before the 31st.

From Maroon Bells,
Mary
