hi there

attached is the proposal from Aspen landscaping for the refurbishment of the gardens at the main house and photo's of areas to worked on

I reviewed there earlier proposal and cut back on some of the material qty proposed. some of this work can start now, listed below

Lavender beds, boulder garden, window beds, terrace beds

Some of the Plant material for the front court yard will have to wait until stucco work has been completed

the ponderosa pines at the main entrance will need to be removed, will need to discuss with Jeffrey replacement options.

but in any event recommend removing and filling in holes and tidying up area for July

any questions please contact me
