**Subject:** GIV APU update

Jeffrey,

Dennis located a -100 APU with Fresh Hot section / Zero Time for \$115,000 plus trade-in of his APU and is ready to install, I told him he needs to speak with us before he purchases and installs.

Gulfstream gave me a verbal price of \$210,000 to upgrade Dennis's APU to a -150 fully installed price.

It takes 30 to 45 Days to upgrade a -100 to a -150 depending on parts availability.

If you elect to pursue the -150 APU upgrade, Sean at Gulfstream indicated that Gulfstream Palm Bch has a -100 APU loaner in Palm Beach we could possibly use for Free if we elect to do Cockpit upgrade and interior work in PBI. The use of the loaner APU could enable us to travel to Paint shop also.

I will have a firm written quote from Gulfstream for -150 APU tomorrow with completion dates for you to decide, rough numbers at this point:

Gulfstream -150 APU upgrade	\$210,000.00
Dennis pays	\$115,000.00
balanced owed	\$95,000.00

thx  
Larry
