Subject: Other secondement ideas?

All the WB stuff is moving forward. Interview Monday for urban job.

Want to be sure that I have thought through all secondement options in case I don't get the big job.

JP Morgan learning to be a banker and advising their clients on philanthropy and grantmaking.

ABC news as the "global development" reporter since foundation made big grant to cover development issues.

Disney to help develop content for issues of relevance (not my skill set really)

Dunno. Any other ideas where there would be strong argument for both the foundation and seconded group? AND ME that would be fun?
