Jeffrey's very clear direction to █ Danny and I was to get these pieces of junk off island as soon as possible. He agreed we couldn't do it until the new bikes arrive.. In that time the Mechanical condition of the bikes deteriorated, engine belts, brakes you name it. Therefore they where sold as parts so know title could be sort, hence the price

Greetings █ and Rich,

JE asked me to email the following question to you for an answer to him:

How did the two red bikes get sold for \$400 and leave LSJ without his permission?

Kind regards, DW
