Subject: Global Canine (Florida Dog place)

I have spoken to the lady at Brices place that he told me to speak to. She says yes they do bring in from Germany, I asked her what age and it says depends on what she orders (so can be anything). She has a well trained 4 year old male at the moment which she says is from great lines and would work well on the island. BUT a little strange... she says ' he was actually my personal dog but then I decided I wanted a rottweiler so we use him as our stud now'.

She says she needs to talk to her boss Terri due to the situation we had in the past just so we can see how to move forward. She wants to call me back on Wednesday. I said ASAP.
