Jeffrey,  
**what time would you like Craig to call you?**

I received the email below from Craig this morning,. the control issue needs a firm price, Bell indicates there have been two 430 parted out and bell needs to confirm part number for compatibility install on our 430,,,these controls may be bought according to Dave Burch (Bell) \$20k or less,. Craig needs firm price and is willing to use PremiAir commission to pay for this, I hope to a firm price today, so our range is 20 - 60k. I do not know if we are bordering on frustration of seller since he as lost the controls, and Mich is telling Craig its our problem since its a fire sale,.and seller himself is flaky,

my opinion, we get the most out of Craig for controls, and close this deal,. I'm way ahead in value, even if i need to shop harder for dual controls,,,I don't need the duals in 430 to fly, since its dual auto pilot and single IFR pilot certified, I want to duals at some point, but its not urgent now,. just for current deal,. New controls firm price is \$62,000.00 from Bell, Craig offered \$20k to close, but needs confirmation that price is good,.may be able to squeek another 10k, maybe

Larry,

All is ok, I'm getting frustrated with these guys simply. I can't get fast, concise answers so I need to play hard ball with them and say get on with it.

The image of the floats was wrong so I'm told so now Owen Dennis needs to personally go over to take picture and check everything, he can't do this until Saturday. I still have no price from Dave Burch also, I hope to hear back soon from him.

Give me a couple of hours to bang heads together, I will have answers!

Kind regards

Craig Lammiman
