Subject: IPeel Dual SIM for Iphone To: Jeffrey Epstein <jeevacation@gmail.com> Turn your iPhone 4 in a much functional device for your active lifestyle! The IPeel is a perfect all-in-one accessory for your iPhone 4. The case has a SIM card slot built into the inside of the back cover that let you activate two SIM cards, make and receive phone calls on two different carriers. The device works specifically with the iPhone 4 making it available for the third SIM card. It features a TF card slot, supports Bluetooth, and FM. Moreover, iPPeel also contains built-in battery that powers the dual SIM operation. Once the iPhone 4 battery gets low, you can use the IPeel to recharge your iPhone and continue to use the second SIM card. The dock connector port allows you to charge both your iPhone and the IPeel's batteries at the same time.
