~ This Week's Guest: Alan Steinfeld - October 11, 2012 at 8pm Eastern ~

Alan Steinfeld is the creator and host of New Realities Television which is cast on the Time Warner network in New York and on the web. The mission of his web site at: NewRealities.com is to identify New Realities that are emerging on this planet. That means that the way people think about themselves and the world are changing. There is an influx of higher knowledge that is emanating from "the Unknown." The veil between the dimensions is getting thinner and many people are opening up to new experiences that some have called "spiritual." But Alan says we should not limit ourselves with the use of that word. he prefers to say that new realities are expanding our abilities to be more humanan and to feel more of the subtleties of our incarnational experience. Mr. Steinfeld's personal quest is to connect with the consciousness of that spirit, and in so doing, he has researched and discovered fascinating elements related to our discussion on the the galactic cycles through which we and our solar system move. This great cycle brings great seasons of change through the millennia of human evolution and development. These great seasons and more will be the focus of our talk.

What is Cycles Radio?" *Cycles Radio* explores the Cycles of Change based on the study of your host, K. David Katzmire, who has developed the theory for more than three decades to understand the Cycles of Time. Universal patterns can be found in a person, a nation and in the eras of civilization on different scales of size and time. Therein lie undulating energies of physical, emotional, intellectual and spiritual cycles that are replete through our lives in wonderful fractal patterns that we can discern once we unlock the simple code.

This fascinating discovery has led to notable accuracy in identifying the manifestations of energy that effect all aspects of our lives from; the leaders we choose, our business trends, scientific developments, arts & literature, music & entertainment, sports, fashion trends and much more, all moving to the same universal patterns. This weekly show is dedicated to exploring this inquiry further. Join us and see how these cycles may effect you in the days and years ahead and where you are in the tides of time.

Thank you, K. David Katzmire
