Whatever you need done. However you envision you want it done.
A presentation will be needed, but the bullet points are.

*custom data bases
*automate tasks
*create a platform that gives you a complete picture of priority progress
*take control of your digital assets

Just wanted to follow up on this as I see the need at ftc, hbrk, and darrens office. it would improve how things are organized.

FileMaker would greatly improve efficiency.

Hi, Scott. Any FileMaker work on the horizon? Just curious.
How about that iPad 2, eh? :)

Sincerely,

Chris Kubica
