Subject: Re: Containerised RO

Brice,

The containerized Equipment & Accessories totaled \$154,330
Supply and Install Intake & Pump House Equip \$16,000
Supply and Install Feed Lines including cable & electric \$32,200

Total of the contract \$202,530

We also paid

\$1,500 for installation of 100 ft 8 inch HDPE pipe for intake
\$1,952 to install buried 6 inch Asahi gate valve
\$3,087 for mobilization for start up and training

So what are they exactly going to be taking for the proposed \$40,000? just the container with the unit or with all the accessories and pump etc etc.

Thank you

Emad Hanna

TSG has made an offer of 40K, for the containerized RO.

In simple terms they would like to take delivery in Sept, 10,000 deposit now, the rest when they pick it up

waiting for Emad to confirm what was the actual cost for the unit
