Subject: Re: Boeing trip

-Yes flight attendant is required with passengers in excess of 19
-Last I heard the trip was next week,no official date,.
-I will get back to you on duration of insurance, first understanding was, One time trip only.
-I have asked Universal several times, who will be on board, Universal just told me all is quite from the State Department side, no news at this time. I don't believe they are willing so share passenger info until trip firms up,.
