Good morning Jeffrey,

The architect needs to have a survey done of the site designated for the fuel pad. Please let me know if I can proceed to order the survey at a cost of \$1,850.

With warm regards,

Cecile

Good morning Cecile,

I did speak with John about the scope/size of the survey but didn't get a definite answer. He mentioned an engineer or person on-site who is concerned with the project. I'm very familiar with the area so I'm comfortable providing a budget number for the survey at \$1,850. Let me know if you'd like to proceed and the surveyors can meet with the engineer at the time the survey is conducted to assure we cover his/her concerns.

Sincerely,

*Ryan C. Wisheart, PLS
President*

Good afternoon John,

Please let me know the size of the area to survey. I presume it is bounded on the east and north by the existing concrete but please correct me.

Sincerely,

*Ryan C. Wisehart, PLS
President*

A Google Earth location of the site.

With warm regards,

Cecile
