Subject: Hoping to clarify my intentions and move forward.

Jeffrey,

To have the capabilities to help you, when you need help, was my intention.

The mis-communication between me [REDACTED] is an issue, I am working on it. The urgency is a time based one for leaving thurs, but clearly the level of urgency conveyed was not clear.

Bill Murphy has a day Job so if I can reach him, It would be an early evening appointment @ 7 pm or so. Also I am concerned our differences in opinion are dramatic and not sure if that debate is something you are interested in seeing or hearing.

Now back to my intentions.

Monitor.

Every Mac Sold, now has a mini display connector. That monitor would work with any mac you own world wide. Every server we are installing, LSJ will be #2, non of them have monitors. If something goes wrong, I will need a monitor. To work faster for you, I will need a monitor. The monitor also has an i sight camera built in. If something were to go wrong it would be helpful. I don't want to waste your time or money Jeffrey, but in these early stages It will be very important to me to explain my intentions if they perceived as mis-steps. At Some point, somewhere, you or someone near you will need a monitor. I know Joe Pagano is going to need a ton of them once the trading platform is established.

Printer

Printing issues have come on my radar with alarming frequency, To help resolve these issues I got the smallest printer made for portability. So if someone needs to work in the middle of nowhere or someone needs to print right this second I would have a solution.

SPEAKERS

Well this one hurt on a personal level, so that is 100% my fault, I own those speakers myself and that clouded my perception on there quality. However, my intention was to have a portable low power solution so we could stream your music anywhere you may be. Speakers blow, power amps, die: it was a keep the party rolling no matter what idea, There are so many locations you may want music now being able to plug it in anywhere I felt had longterm advantages.

Jeffrey again your PRIORITIES are the only thing I am concerned about and I apologize that I purchased things on your behalf that don't meet your priorities. I am still learning the ropes and your line item approval on every purchase from now on is understood.

thank you for giving me the forum to clarify my intentions because it is very important to me that you understand these items were not bought in a causal manner. Now that I know I was so off the mark I will be very careful not to let this happen again.

I will be returning the items ASAP. And will keep you up to date on getting Bill Murphy for you.

Sincerely,

Scott Denett.

ok,, scott , lets learn from todays missteps.. you told [REDACTED] that these things were urgent, they were not discussed . IT did not involve my priorities of speed . coverage and communication and central storage of data, photos music and there distribution.. speakers monitors portable printers areNOT the priorities .. I want extensive coverage on the island. document sharing . please limit yourself to my issues,, I think we should ask bill murphy to the house today or tomorrow. thanks.
