Peel the pineapple on the table in the kitchen. Is it really so terrible problem? They found it not in bed, not on the floor, not in the toilet and not even in the living room. On the table in the kitchen.

Come on in order.

What do you want, when you work all day and get tired? You want to relax and have a pleasant, right? So I borrowed a vibrator for 1 hour (surprisingly, I did it the first time, and you are immediately on the next day you've caught me (ie Jane and her camera).

After a good orgasm how do you feel? You're awfully sleepy, right? Here I am, but all this I still wildly hungry. I ate my favorite pineapple and almost immediately fell asleep on the couch.

Yes, I did not throw it. Thinking that I'll do it tomorrow before school. I do not even give back a vibrator, although took an hour and asked to do so tomorrow after school.

Refrigerator I have often empty, so the kitchen I go rarely. That's why I left a pineapple in sight on the table order not to forget to throw in the morning. Stupid. But this morning I hurried to the school that did not even look into the kitchen. I stupidly forgot. Sorry, but I have no housekeeper, who immediately eliminates all for me or the assistant, that reminds me, if I forgot something to do.

I stupidly forgot.
