Hi Philippe,  
Just checking in to see when we can expect to receive a quote from you to do the suggested work at Mr Epsteins apartment.

Thank you,  
Sarah

OK, but you don't really answer my question :

I understand the 65" for your bedroom + Wireless HDMI

For the other screens, do we do the same, or use old analog cables, or put  
B&O TV with bluray dvd included

Thanks for your answer

1. We change  
the TV and  
DVD, but  
we still  
use analog  
cable (it  
will still  
be good  
quality)
2. We use  
wireless  
HDMI  
transmitter (approx  
1000€), I  
think it  
worth it  
for home  
theatre,  
but maybe  
not for  
guests  
bedroom
3. We use B&O  
TV with  
bluray dvd  
included.  
Yes it is  
more  
expensive  
than  
other, but  
more  
beautiful  
too.  
Everything  
in one  
box. Only  
one remote  
control.  
14000 € /  
each 40''  
inches.  
For your  
bedroom we  
could go

up to 55  
inches if  
you want.

Hi Philippe,  
Jeffrey's comments are as  
follows:

"no sonos in guest rooms,.. use only mac for music storage, no  
server.. why can we not run  
new cables? I will need to hear  
the new speakers but sounds  
like a good idea"

Dear Sarah,

We went to Mr  
Epstein's  
apartment last  
week and made a  
complete

overview of the system.

Before finalizing the estimate we would have a few question, could you please transmit them to Mr Eptsein.

### **Music**

Sonos system is really the best because it can work wireless. We counted all the zone where you already had an audio access keypad. But in some bedrooms there are small hifi systems.

Do you also want to replace them by sonos. Or maybe later ?

Do we use the music stored on you mac (it means it has to be on to listen to music, or do we propose a standalone server (1500 €) ?

For the speakers, the small JBL that are on the floor in the living room and office look very small for those rooms. Would you like

us to propose  
Floor standing  
speaker (like  
B&O, because  
good sound and  
good looking)

<image001.png>  
**Home Theatre**

Since we can't  
run any new  
cable we'll try  
Wireless HDMI on  
the new  
projector. So we  
will also have  
to change : DVD,  
Receiver, Screen  
(for a 16/9)  
We'll use your  
ipad to control  
It

No question  
about the home  
theatre

**Guest bedrooms +  
Master**

Cables between  
TV and DVD are  
poor. Impossible  
to run new  
cables so 2  
options :

1. We change  
the TV and  
DVD, but  
we still  
use analog  
cable (it  
will still  
be good  
quality)
2. We use  
wireless  
HDMI

transmitter (approx 1000€), I think it worth it for home theatre, but maybe not for guests bedroom

3. We use B&O TV with bluray dvd included. Yes it is more expensive than other, but more beautiful too. Everything in one box. Only one remote control. 14000 € / each 40'' inches. For your bedroom we could go up to 55 inches if you want.

Let me know what you prefer

Thank you for

your answers it  
will allow me to  
finish the  
estimate

Best regards

Philippe
