Discussions on where we were, where we are and where we are going in changing world of universal rhythms.

~ This Week's Guest: Ray Tomes - October 18, 2012 at 8pm Eastern ~

Ray Tomes found the Cycles Research Institute to further the study of cycles. Ray notes the the Universe consists of a standing wave which develops harmonically related waves, and each of these does the same. In a fractal/harmonic universe there are threads of consistency in matter and creation that shape our lives in the human experience just as it shapes the manifestation of nature all around us.

What is Cycles Radio?" *Cycles Radio* explores the Cycles of Change based on the study of your host, K. David Katzmire, who has developed the theory for more than three decades to understand the Cycles of Time. Universal patterns can be found in a person, a nation and in the eras of civilization on different scales of size and time. Therein lie undulating energies of physical, emotional, intellectual and spiritual cycles that are replete through our lives in wonderful fractal patterns that we can discern once we unlock the simple code.

This fascinating discovery has led to notable accuracy in identifying the manifestations of energy that effect all aspects of our lives from; the leaders we choose, our business trends, scientific developments, arts & literature, music & entertainment, sports, fashion trends and much more, all moving to the same universal patterns. This weekly show is dedicated to exploring this inquiry further. Join us and see how these cycles may effect you in the days and years ahead and where you are in the tides of time.

Thank you, K. David Katzmire
