[REDACTED] Rich Khan just called. Flight options just called him and said the pilots for your plane are saying they are fatigued and can't fly. There is a plane landing in Farmindeale, NY at 11pm, and you could have wheelsup at 12am from there to Logan, or they could reposition the plane to Teterboro for a 1:30am wheelsup. Or should we try to schedule the flight for early morning?
