His demise?! I can't imagine the rapper's entirely responsible. What a shame.

At least a maid renders a service. It's unclear how an actor is useful. Re: irrelevance... The best actors are commended for their invisibility. But they are occasionally able to communicate something about human behavior that words cannot. Then again, without the words the actor is nothing. And that is the service a writer is meant to render. It is all about Keats' two favorite subjects. For you truth and beauty is in numbers for me it is in human behavior.

This job was never intended as anything more than a last hurrah. Just before I met you I was in Berlin shooting a campaign with the director Anton Corbijn, and he asked me to audition for a small part in his film. He is one of the best directors working today and the script was smarter than any I'd read, so I decided to do the part to cap off what had become an odious, joyless and frustrating journey. In that sense it has been invigorating, because I am reminded that there are other ways to see the job (if not that business) and I now know why I wanted to do it, why I'm not a born actress, and that I'm better suited to expressing myself in other ways. Real entertainers believe they have a calling -- that entertainment is a sort of life force -- which I don't, and I've had to concede that. It is a valiant pursuit for some, but it was never an entirely authentic pursuit for me so valor doesn't even enter the equation. I find it and modeling less compromised than writing junk, so I quit the startup. It was a cockamamie operation and I'm glad I got out. I return to the US on Weds and will finish two scripts I'm working on (this, for whatever it's worth, does give me joy) and then, by the time you return, we can discuss how best to put myself to use. I've been doing all these things because I could do them and because it seemed interesting, and I pursued them earnestly, but not with

the sort of singleminded focus that gives someone a career by the time they are my age. I have access and visibility, which is certainly a commodity, but I feel like a cheat. The truth is that I'm a professional dilettante, made worse by the fact that I don't have a dilettantish mind.

I just keep thinking about how that jackass, will.i.am, wound up being the hero of Wurman's conference, that he was given special dispensation by all the smarties to say and do vapid things because he was a celebrity. Could it be that all the nerds know that soft power is the only real power?

The Max Planck Society is a pretty large organization, composed of a lot of different institutes all over Germany. The main seat is here in Munich, I think, as is their Psychiatric Institute, which is very well known and well respected. Which institute do you mean, or do you mean the MPG as a whole? I would research a lot for your foundation, but I'm not sure how much access my brain

are you

How was the Island? are you in Paris now?
