With LIFE OF PI, director Ang Lee ("Brokeback Mountain"; "Crouching Tiger, Hidden Dragon") creates a groundbreaking movie event about a young man who survives a disaster at sea and is hurtled into an epic journey of adventure and discovery. While cast away, he forms an amazing and unexpected connection with another survivor...a fearsome Bengal tiger.

Based on the book that has sold more than seven million copies and spent years on the bestseller lists, LIFE OF PI takes place over three continents, two oceans, many years, and a wide universe of imagination. Mr. Lee's vision, coupled with stunning 3D visuals, has turned a novel long thought un-filmable into a thrillingly audacious mix of grand storytelling and powerful and provocative themes.
