Jeffrey,

Greg Penner is the person investing on behalf of the Walton family.

<http://www.gsb.stanford.edu/advisorycouncil/penner.html>

He is very smart, having made investments in Baidu, 360buy and other Internet companies well ahead of the curve.

He also sits on the board of Hyatt, representing the family's stake in Hyatt which Tom sold to them through Madrone for \$1 billion back in 2007.

You should probably meet him at some point.

Best wishes,

Ian
