Ok, I remember that's what you told me, That you wanted me to Hydroseed it with Grass and wildflower seed and just let it go natural, but Brice and Gary told me that you told them you wanted Beach #2 to be like Beach #1 which would require irrigation.

Please forgive any misunderstanding, I will do it however you want.

If you do want the Coconut trees we will need to run one 3" irrigation pipe from the doghouse along the road to the KiteHouse so we can run emitters to each tree. However this will be very easy, nowhere near the irrigation needed for a lawn.

I will organize the plant movement with Ms. Vaccarino, and we will schedule loading and transporting in consideration of the pending storms.

Thank You,

Igala

Good Afternoon,

The Eastern Beach is Beach #2 where the Blue Office is.

Regarding Ms. Vaccarino,
Should I accept her offer?

Subject: LSJ Irrigation

Good Afternoon,

The purpose of this email is to request approval for an order of needed irrigation material for upcoming LSJ projects.

Originally Scott and I had a meeting concerning upcoming projects and weather or not we had enough inventory on hand to complete them.

We were planning at first, to make an order for Pop's Garden and also an order to replenish our diminished stock, especially since I knew we had some big things coming up, even though at that time there were no defined plans.

Since then a few large projects have come into focus, namely;
The Eastern Beach grass project, The North Eastern

A list was made during our meeting and two invoices were generated based on that , however I think the structure of the invoices was a bit confusing,

Since it was not itemized per project.

There are two invoices, the first was labeled "Pop's Garden" and the second was labeled "Irrigation Inventory" however the total sum of both invoices constitutes the Entire needed material for the current large LSJ landscaping Projects i.e.;

- Pop's Garden: Fruit Trees and Vegetable Gardens

- Drip emitters for the Fruit Trees
- Electric Valves and Timers
- Pipe and connection hoses
- Pop up Mist Sprayers

- North Eastern Sod Grass:

- Pipe and connection hoses
- Couplings and fittings
- Sprayer sprinkler heads
- Rotary pop up sprayers
- Valves and Timers

- Eastern Beach:

- Pipe and connection hoses
- Emitters
- Rotary pop up Sprayers
- Valves and Timers

- South Western Pool:

- Pipe and connection Hoses
- Emitters
- Sprayers
- Valves and Timers

I would like to have these invoices, approved so we can have what we need to complete these projects, I Have attached the invoices for your review.
