Subject: LSJ Fuel

Jeffrey,

On February 4th we purchase 30,000 gallons of fuel for the mechanical building which was all delivered within 1 week of that date. From what I'm hearing the last missing piece in order to be able to operate the pumps and use that fuel is the electrical which is yet to be done and I don't know why and I'm told by Brice this will probably be completed by the end of March.

We are now in a bit of a pickle because we ran out of fuel today and had to fill up the truck for a total of \$ 7,646.81 and I was asked by Brice to lock in 2 more loads of Diesel and two loads of premium which totals \$ 18,544.

The price has gone up since we last purchased the fuel and is going up again, however I talked the vendor in keeping the same price from February 4th.

That said and with your approval we will process a payment in the amount of \$ 26,190.81

Thank you

Emad Hanna
