Subject: FW: LSJ Tire Order

Jeffrey,

Please advise if you approve of the purchase

Purchase price is \$ 10,906.44 plus about \$ 2,000 for a 20' container via Tropical

Subject: LSJ Tire Order

Jeffrey,

Current tire inventory on LSJ is only for Gators and Mules and nothing for the heavy machinery.

Of the proposed order 30 % of that is for mules and gators and will replace the inventory there now because it will be used up by the time they get this order.

The other 70% of the order is to replace some of the current tires on the heavy construction machine and the rest is for inventory.

The inventory is important incase anything needs to be replaced they can do that without the machine being down for days because they can not get these tires locally or in Puerto Rico, this way there will be no delay during construction for the heavy machinery.

I also spoke to Gary about this and he feels that its crucial to have the inventory especially for the construction equipment because if machine goes down we would have to rent one until we can get it back.

Thank you

Emad Hanna
