[REDACTED]  
I have a landscape designer that I have contacted to come over and visit LSJ. He was recommended by Rich Cortese. His company does the Westin St John and some other islands in the area.

He is available to come down Wed. morning, 9:30 -11:00  
He will be:

- Looking at landscaping
- Looking at dying plants around the owners room and suggesting the correct plant material
- Developing proposals for future maintenance programs.

They will be flying over from St John by helicopter . Is there a way to get permission for him to land on the island.

Thanks;  
Craig
