**Dear Mr. Jeffrey Epstein**

Avenue Magazine has published my 2011/2012 Oscar Diary in their April issue today.

The Huffington Post has just put it up on their website. For a good read and a few laughs, please see the link below.

I am sorry this story came out so late. Going forward, I'm headed to the Cannes Film Festival in May and will send that report in a more timely fashion.

Hope you well. Enjoy the read.

xoxo,  
Peggy
