Subject: Marina Security

Greetings Sir, on the morning of April 3rd when I approached the barge one pilot house door was open and it was obvious somebody had been inside. I found empty beer bottles, two have smoked joints and used condoms. I reported this to Jinny and provided her with pictures. The area of P-Dock where the barge is docked is completely lacking security, there are a number of drug addicts/alcoholics that have taken residence in this area and do their thing all day and night with no opposition from anybody, Security looks the other way and ignores this. I will contact Brian to give an estimate on a gate to secure end of p dock.

Respectfully,

Carlos
