Nick is being stubborn, he still wants to keep his \$7,000 profit, upgrade to 3D is \$11,900, on top of the \$58,500 we are paying for 2D projector, just FYI,
Nick's cost for 2D projector is \$51,500
he's charging us \$58,500.00 (\$7,000 profit to Nick)
upgrade to 3D is \$11,900.00 additional, at his cost, he claims
total for 3D would be \$70,400

Nick is confirming with DPI that 3D projector is better than 2D,.

during our first conversation's NICK TOLD ME THAT THERE WAS NO DIFFERENCE IN 3D PROJECTOR PLAYING 2D MOVIES,. Now there is the question, if in fact, the 3D is a better picture in 2D mode, than the straight 2D projector, than the demo we did of the 3D, was in vain,.
it will be interesting if Nick says the 3D projector is better playing 2D movies than the straight 2D we have at LSJ currently,.
I will keep you posted
