Reminder Larry Summers is to call around 3:00 on your cell today...let me know if we should set up a time for next week with Jose Luis Contreras-Vidal (since he only has between 3-3:30 today...but maybe this is enough time for both calls?). (Vidal asked me why you wished to speak with him...I said you are very interested in the sciences and the brain...had seen an article on his studies and you are interested in his studies.)
