1030 at nite + u have to write this e-  
Can u finish all the construction by end of week  
What are u doing about the repour of that pad- or does slope not matter?

Ok  
Will get danny on dimmers in the morning.  
Also we are going to punch out the building tomorrow.

Fire Pit;  
I just went up and started it;

- gas flames look OK
- Puts off good heat
- controls are difficult to use to get pilot light going
- Remote control works OK after pilot is lit
- Can show you how to use
- If it is OK I will have Brian run the permanent gas line and build box to hold tank

Conclusion; like the gas, do not like that unit. Suggest we look for a better one

with controls that work better.

We have grate for wood burning operation;  
It is pretty windy up there and embers will fly. If we want to use real logs we probably  
need to make a custom mesh cover.  
Aaran has wood coming.

we need to rationalize the five plans electric switches,, there are empty spaces. no  
dimmers. still, . not sure how to operate fire,
