**Subject:** Fwd: What's in a name ?

### What's In A Name?

The experts have developed a very comprehensive system of naming one's children as it is believed that the name of a person strongly influences one's destiny and fate.

Astrologers, fortune tellers, academics and monks are consulted when choosing a name for the new born.

Most other cultures, however do not really believe in it and tend to brush it off as superstition. Whether you believe it or not, however, the other cultures are not spared of this correlation.

One very good example is Lee Iacocca, whose name

**IACOCCA** stands for:

I  
Am  
Chairman  
Of  
Chrysler  
Corporation  
America

Coincidence?.....

Consider the following familiar examples:

**BUSH** stands for:

Beat  
Up

Saddam  
Hussein

**CLINTON** stands for:

Call  
Lewinsky  
I  
Need  
The  
Oral  
Now

However, no one can beat this latest casualty in  
bad naming:

**OSAMA** stands for:

Oh Shit American Missiles Again!
