Subject: Re: IPI follow-up

It was a pleasure to meet you last week in Strasbourg . Unfortunately Mr Larsen schedule prevented him from attending, However , We hope we shed some new light on the complex subject in our short time to Mr. Gates and his team. WE have continued to reflect on possible approaches to eradicating polio in the last few regions of the world where it is endemic.

Mr. Gates pointed out, the his last millimetre seems to be the hardest. While one approach has worked remarkably well in 99.9% of the world as part of a global health campaign, we suggest that the last little bit has to be considered in very specific security, political and social conditions at the local level. We believe that we can help.

We would welcome the opportunity to talk in greater detail with you and other colleagues at the Bill and Melinda Gates foundation about strategy and tactics.I believe It would also be helpful to know more about your surveying techniques and communication strategies.

What works best : should we start with a Skype or phone call (early next week)? We are also putting some ideas on paper.

Are the interlocutors from the foundation who work on this issue mostly based in London? As we move forward – particularly before moving to the operational phase – I think it would be in best interest of the project that we meet around the same table.

I believe that MR Larsen and Mr Gates , will at some time in the near future , meet with a goal to outline a move forward plan,

Thank you for your attention.
