Subject: Boeing Insurance

Larry,
Upon speaking with Rich, I've been told you intend to authorize Willis to negotiate the Boeing insurance for charter. We will send you a copy of a resounding letter for your signature so you can authorize Willis again. I also believe it is very important to get you in front of Global as this will assure us the best possible outcome. We have been speaking with the markets and I believe they are a bit confused about the risk after the recent dealings in the marketplace. I think our best bet is to get you here in front of the insurance companies and allow them to ask questions so they can again become comfortable with this risk. Please let us know when you can come to NY to get this done. Insurance companies need solid information and as soon as they have it, things will happen quickly.
