**Subject:** Organic Avenue Juices

I went to the juice place which Steve had recommended I test for you. I think it is the same place Dr Merrell told you about. It is on Lex between 73rd and 74th (east side of the street girls.) I have tested their green juices and they are fantastic (better than the juice press where we got from the other night) They are very mild and soft - even you would like them ...I think!! And they are bottled in glass - which I love!!

I think we will do another tasting session when you are back, then we can stock up on what you like and have them on the plane for you...so our baby is kept healthy!!!
