LOOKING FOR WORK!

A doctor from Israel says: "In Israel the medicine is so advanced that we cut off a man's testicles; we put them into another man, and in 6 weeks he is looking for work."

The German doctor comments: "That's nothing, in Germany we take part of the brain out of a person; we put it into another person's head, and in 4 weeks he is looking for work."

A Russian doctor says: "That's nothing either. In Russia we take out

half of the heart from a person;
we put it into another person's
chest, and in 2 weeks he is
looking for work."

The U.S.doctor answers immediately:

"That's nothing my colleagues,
you are way behind us....in the
USA, about 2 years ago, we
grabbed a person from Kenya
with no brain, no heart, and no
balls....we made him President of
the United States, and now.....
the whole country is looking for
work!"
