Jeffrey:

I was having bad internet problems while at Red Hook & LSJ so I'm going to resend these photos. Please ignore if you've already received them. These are of the road paving sample below the gym. It's hard to capture the true color but the paving really does blend well with the natural colors in the wall. Gary will bring additional photos on Monday.

We also plan to prepare another sample of the "salt-finish textured" paving which is proposed for the area outside the office pavilion & master bedroom.

Thanks,

Stephen
