Subject: report from Ranch

Hi [REDACTED]
This are going well.

Main House has 3 3g boosters so JE *and you* (the numbers must be programmed in)

Can make and receive iphone calls in many areas of the main house Kitchen, [REDACTED]
2nd floor.

Had a great meeting today with VALCOM and have asked them to focus on 1 thing,
BANDWIDTH to the ranch.

We currently have a 1.5 mbs pipe i expect a solution quote for a 4-6mbs pipe no later than
monday end of day.

All of the old wi-fi has been replaced with current apple airports, the main house switch
has also been upgraded.

I need at least a full day on friday to triple check what has been set up at the main house is
working as well it can.

But my current plan is to be 100% ready with this phase of the upgrade no later than wed
of next week. This gives me more time to fix other issues as they come up.

ALL THAT SAID here are some of my outstanding issues:

- 1) I would like JE to reconsider or give me a final no to the \$1000 doc in pay I had this
month as punishment for being "late for work" he said we would talk about it
around April 15th and we have not.
- 2) Timing for a brief return to NYC and then LSJ should allow me enough time for
overdue doctor and dentist appointments that have been put off because of work-

load. At that same time I should finalize the changes requested to the wi-fi @ 71st ie change the password. And also resolve any last questions of the NEW YORK staff ---HBRK and Darren.

3) A final agreement needs to be reached on how I can continue to work for Jeffrey directly. IT'S ALL I EVER WANT TO DO AGAIN.

let me know if any of this can be addressed conveniently at this time.

other wise I await marching orders from JE beyond the current tasks which I will need at least till monday to fully complete.

any advise is appreciated

Thank you
Scott Denett

Hey Scott. Just checking in. How are things going on the ranch?
