Dear Jeffrey,

I hope you remember me Jeffrey. And I hope this letter finds you in a good place.
I used to come to your Palm Beach home and do massages. I was married then and became pregnant. My daughter, Hunter, is 8 now.

You bought some floral arrangements from me for your caribbean home. You always told me I needed more calcium....to chew a few tums everyday! You used to crack my neck and we would have good conversations. I felt like you were a friend and a mentor. You encouraged me to go to school and helped me with my tuition.
