no, no, I do not feel that they treated me wrong. I am sure that this is a wonderful medicine, I saw the effect, and was very pleased with the result! I just feel that they have not paid enough attention to me ... in October to receive the nurse asked me if I went for blood test and I said that no one ever sent me ... her face was clear that they forgot to send me to the test ... but medicine is really amazing works! and you've seen the result ... it would be nice if they at least have written me 2 packages (40 ml and 20 ml), it would be cheaper per package. I could take 2 tablets - in the amount of the same dose: 60 ml ... Do you think if I can call and write a new prescription? It just crazy expensive for me...;

Regards,
Anastasiya.
