Subject: i mentioned

woody allen to stevie tonight and i haven't seen him so happy or smiley in a very long time.
he was very excited and distracted.
so he's in -

thanks for the idea. woody is a serious hero of his. he has a list of 3 or 4 people that he admires (minus steve jobs).

he was very sad earlier and i asked him if i was part of what was making him sad - and he seemed shocked that i would ask and told me that i was the only thing that was making him happy and that this was just the hardest time in a while (professionally). i didn't push it or ask anything else but he was sincere so i will take him at his word. he asked me to just keep being me and not to change anything.
