Good afternoon Mrs. deJongh,

Regards:

- (1) The TWA, LLC application for the soon-to-be-retained Air Center Helicopters, Inc.'s (Middle Bay) space at the Cyril E. King Airport ("CEKA"), General Aviation hangar: we are preparing that application to be ready for VIPA Governing Board's July 2011 meeting. Contingent on this process, and should the application be approved by the Governing Board, we would

anticipate a steady transitioning of the premises in time for when Air Center vacates – anticipated 08/31/2011;

- (2) The TWA, LLC's application for self-fueling tanker placement ("depot") area: identification of a specific area, from among those already identified as potential areas, is still not completed – I will inquire via Mr. Dale Gregory (VIPA Director of Engineering) as to progress. Mr. Gregory will also confirm any other area contemplated/designated to be processed with your third active application for space for constructing a hangar at CEKA.

I trust to serves to update you in these matters. As soon as we have clarified the availability of specific areas from among those already identified as "potential" areas, I would be please to further update you and proceed accordingly.

Sincerely,

Walter L. Challenger, Jr.

Good afternoon Mr. Challenger,

I am just following up to see if there are any updates on our two applications (fuel depo and Air Center space) pending with VIPA. Please let me know at your earliest convenience. Thanks.

With warm regards,

Cecile de Jongh
